

ZEBRA

# Optimizing Vaccine Distribution From Production to Patient

Zebra solutions can help safely and efficiently meet the COVID-19 vaccine demands.

Our solutions play a critical role in each phase of the distribution and administration of millions of COVID-19 vaccinations across the country. From temperature sensitive labeling and tracking of the vaccine to assuring accurate patient administration and workflows, Zebra has you covered.

**Zebra Barcode Technology**

- Zebra scanners, printers and print media are specifically designed to provide safe, effective and virtually error-proof workflows so you can deliver the right vaccine at the right time.

**Mobile Technology**

- Utilize mobile technology to manage vaccine administration in any environment with cellular and WAN capabilities. Applications simplify tracking of patient check-in, workflows, administration and inventory monitoring for front line workers.

**Temperature Monitoring and Sensing**

- Gain vaccine temperature visibility from the large shipments to individual vial levels to maximize the amount of administrable COVID-19 vaccine doses with our Electronic Temperature Sensors, TransTracker® Temperature Indicator Cards, and HEATmarker® Vaccine Vial Monitors.

<p><b>Fast</b></p> <p>Immediate data capture enables streamlined workflows with greater throughput, efficiency and accuracy</p> 	<p><b>Safe &amp; Compliant</b></p> <p>Disinfectant-ready housing withstands repeated sanitizing</p> <p>Reduction of damaged vaccines</p> 
<p><b>Rugged Resilient Performance</b></p> <p>Built for work inside and out</p> <p>Wireless without limits</p> 	<p><b>Accurate</b></p> <p>Automatic data capture reduces errors</p> <p>Barcode technology links vaccine vials to PPID and supports dual-dosage tracking and confirmation</p>
