

# The BlueParrott B-Series

## A range of premium wireless mono headsets to enhance calls in high-noise environments.

BlueParrott B-Series headsets are engineered for superior calls in high-noise environments. Blocking out almost all background noise, conversations will be clearer than ever, no matter where you work. Comfortable ear cushions are ideal for all-day use, and customizable features make most BlueParrott headsets fit for use on the road.

The B-Series is designed to meet the demanding needs of those who work in high-noise environments. Stay connected on the go, and boost productivity with a premium range of wireless, mono headsets that offer industry-leading noise cancellation to enhance conversations with colleagues or management. With long-lasting talk times, and even longer standby times, the B-Series enables users to stay connected, all day long.

Did you know that over **3 million** professionals have been enabled by BlueParrott headsets worldwide?

## Key selling benefits of the B-Series

Offer your customers headsets that deliver better concentration and greater productivity with industry-leading noise cancellation and long-lasting battery life – each model providing amazing connectivity for professionals on the go.

Immediate communication can be opened between workers and colleagues through push-to-talk features (on most headsets) for better connectivity.

Easy-to-use multifunction buttons and rugged designs make these headsets built to last.

### Did you know:

**78%** of workers state that noise and interruptions negatively impact their productivity\*
